welcome to armyknight,a team which helps everyone to play army of dead easy, we have popular many features for free, only you need to pay the one time fee. Widgets for your convenience : Count Down Timer - Countdown all posts to a certain date, you can change the date format. 1.Intuitive Interface - the whole interface is designed for your convenience. 2.Friendly Features - easy to use, never feel complicated. 3.Support for social media network - connect you, your friends and family with our services. 4.Professional support - we have your back, from site promotion to technical troubleshooting. Features: ●Edit Your Own Design on Website for mobile or tablet! ●7 Homepage templates for your widgets. ●Customize the font size and color. ●Customizable Widgets. ●Support for Windows 8 and Windows 10 ●Standard, Horizontal and vertical orientation. ●Move the widget to any part of your desktop or mobile screen. ●Easy configuration process. ●Support for the latest version of IE, Google Chrome and other browsers. ●Support for dynamic text. ●Support for user-defined images. ●Dynamic text support, you can define the number of characters and the number of lines. ●Customization- Support for Spanish, English and Chinese. ●Support for Multi-language: Supports Chinese and English. ●Support for contact list, calendar and map. ●Downloadable font. ●Modify the text with no worry about breaking the design. ●Update easily when you make changes. ●Have a lot of customization options. ●Choose your own design and change the color, background, etc.. Tips: 1.When you customize your own design, you can use a simple text for the title. But please be noted that the custom logo will not be supported. 2.Make sure that you have a full list of tools to customize the font and color. We provide different fonts in the tool menu. 3.A custom widget design can easily be downloaded from our website. If there is a problem with the function of your mobile or tablet, please send us a message. 4.The font of the calendar widget has various sizes, different font files are automatically matched to the calendar widget. And you can download the font files from the site, but you need to enter a different size for

What's New In?

Install Win7 and look around. Fix that big blind spot. Install a program and it must be easy to use and self-sufficient. MacPro 2.8GHz Intel Core 2 Duo Mac OSX 10.7.2 1GB RAM Lansat Surf is the only WiFi smartphone application which permits you to control the whole network or you can restrict the access of users on your WiFi by changing the settings of your router. You can view the current user statistics and can block unwanted devices from logging on to the LAN. You can also spy on someone's device while they're browsing the Internet and you can also restrict your laptop or smartphone from accessing the Internet while you're out of the house. You can also view the IP address, geo-location, MAC address and BSSID of any user on the LAN. This is an anonymous app and will not ask for your personal information when you install it. Download - Pro version available for \$0.99 MacPaint is a 4.5 MB digital painting tool which contains over 5 million ready-made artworks.The program is very easy to use and has nice features which can be helpful to the beginner and advanced artist alike. The application is extremely powerful and user friendly, and will turn you into an experienced digital painter in no time. It is capable of recreating famous paintings and provides its users with a fast way of creating their own beautiful artworks. All you need to do is select the type of image you want to create and a canvas. MacPaint will do the rest. The image is simply overlaid on the canvas which can be rotated, and given many other types of special effects. The options include: Save it to your Desktop and enjoy Export as an image or a PDF Preview your work on the

MacPaint screen Make your image into a MacPaint4 photo (must have MacPaint4 installed to use this option) Password encrypted file manager. Supports several passwords per file including online content passwords, which prevent the file to be opened by browsers or other applications without special preloaded software. Features:- Very fast file synchronization- Can auto backup to a cloud service- Can encrypt your files on the client side- Can select online content password and the application will automatically try to login to online accounts and set the online content passwords- Can manage passwords for several accounts online simultaneously- Can use the online password management services like LastPass- Can use online web services like Dropbox, GoogleDrive or OneDrive to backup files- Can synchronize passwords between PCs- Can share your password encrypted files with anyone, and access the files on multiple computers simultaneously- Can unlock encrypted files on other devices using the devices' account passwords- Can use a cloud service to upload, download and sync files- Supports adding users to the application's own online content password protected
